Prusik Braid

A high-performance accessory cord manufactured from 100% high-tenacity polyester. Designed specifically for use in Prusik friction hitches, this braid delivers excellent grip, durability, and abrasion resistance when used in climbing, rope access, rescue, and work-at-height applications. Its flexible construction ensures reliable knotability and consistent friction characteristics for effective progress capture and rope management.

TECHNICAL:

- Cover: HT Polyester
- Core: HT Polyester
- Construction: Double Braid

DIAMETER

- Diameter: 5-8 mm
- Reel: 200 m
- Different combinations

FEATURES:

- Abrasion resistant
- Rigid construction

APPLICATIONS:

- Climbing
- Access work
- Arboriculture

Diameter (mm)	*Break Load (kg)*
5	540
6	700
7	950
8	1 255

Safety Note: Always select a rope with an adequate safety factor for the application.
