

Ski Rope & Basket Braid

Ski Rope and Basket Braid is a UV-resistant polyethylene braided rope offering excellent resistance to rot and mildew with good shock absorption. Lightweight and easy to handle, it simplifies coiling, transport, and storage.

Its buoyant design ensures it floats on water, making it ideal for marine, fishing, and riverside applications. The rope does not absorb moisture, maintaining strength in wet or humid conditions.

Available in various lengths or packaged hanks, Ski Rope is a versatile solution for farm work, marine use, construction, load securing, and general utility tasks.

FEATURES:

- Loose construction promotes easy splicing
- Lightweight
- DurableFloats

APPLICATIONS:

- Towing rope for water sports
- Rescue line
- Nets
- Tie-downs
- General purpose

TECHNICAL:

Material: HDPE
Construction: Hollow Braid

STANDARD RANGE:

Diameters: 5 - 16 mm
Reel Length: 100 m
Colour: Solid or white with colour combinations
