

SuperSpeed

Soft, colour coated 12-strand Stealth Fibre® core with HT Polyester cover.

The Southern Ropes SuperSpeed is a lightweight, ultra-low stretch sailing rope designed to deliver responsive performance and outstanding handling. Its soft, flexible construction makes it easy to splice and comfortable to work with, while maintaining the strength and durability required for demanding marine applications. Featuring a colour-matched core and cover, SuperSpeed allows for quick and accurate line identification, helping to keep your vessel organised and your operations efficient on the water.

FEATURES:

- Light weight
- Ultra-low stretch
